According to the specific production of the learning materials, partners discussed about the language of these materials. Some discussion on the language competences of the different students according to the countries led to decide that materials should be produced in English with clarifications in native languages when needed.

The result of the learning materials will be an interactive eBook. For this book, partners should contribute with the abovementioned units summarized in an extension of more or less 20 pages per Heading. These materials can be taken from the already available ones produced by the different partners. There will also be a possibility to share videos and animations in order to complete the eBook.

All partners agreed in the content and extension and compromised to have finished their work for the following meeting, that will be held face-to-face.

4. ONLINE EDUCATIONAL RESOURCE

In order to complete the OER of the project, partners agreed to contribute to the improvement of the webpage and also the OER. To improve the information contained in the webpage, partners can share some resources on the OER to complement their units in the eBook, that way, the information in the eBook will be easier to understand and shorter, in order not to overcharge the reader's attention.

5. NEXT STEPS

All partners agreed that the project should be finished before summer. For that, learning courses and dissemination events should be taking place in the first months of 2022. The dates will be discussed in the following meetings depending on the development of the project.

6. FINANACIAL STATEMENTS

Project coordinator explained the necessary information to complete continue with the financial management of the project. The documents employed will be sent to partners at the same time of the minutes from the meeting.

7. NEXT MEETINGS

Next meeting will take place face-to-face in Sarajevo, in order to start restablising the normal development of the projects, with physical attendance and closer contact with partners.

Partners also discussed about the following meeting, that was expected for mid-February. If the sanitary situation remains stable, this meeting will also take place face-to-face.
